## Brief problem statement

RobusTest basically provides the service of test case automation for mobile app testing. Mobile app developers use IDE applications like Android Studio for testing. The task at hand is to create RobusTest plugins for such IDE applications.

## Team Members

M.Srikar, G.Sai Ragh, B.Krishna Vinay.

## Team Communication

Team meetings are quite feasible because all the members belong to the same hostel. Team meetings happen daily and any developments made are discussed.

## Development Environment

*Android Studio(Eclipse), PDE(Plugin Development Environment), Java.*
